September

Intelligent Rural Schools

## Exciting Update!

During the month of September our work has been to visit each school, meet and talk with new students, parents and teachers, as well as deliver technological equipment (iPads, Smart TV and in some cases satellite antenna) to the 53 CONAFE preschool, primary and secondary schools. During these visits our trainers took the opportunity to carry out a diagnostic evaluation of all the students in order to be able to draw better training paths.

We are happy to see the smiles, enthusiasm and eagerness of the members of each school for this new school year 2023-2024. They are also grateful and happy to be benefited by the Intelligent Rural School project, and promise to make the most of every day of their classes.

We are very enthusiastic and eager to equip and support many more schools, there are many more to go.

We are immensely grateful for the support of our donors; together we can make a lasting impact on rural education and contribute to a better future for all.

Providing iPads

# Learning and playing at Casa Bacaanda

We are excited to share with you the incredible experience we recently had at Casa Bacaanda, where we had the pleasure of hosting the bright and enthusiastic children from Barrio Unión 1 km 2 community. It was a day filled with joy, learning, and unforgettable moments as we explored innovative ways to engage these young minds.

Here's a glimpse into the enriching activities that made the day truly special:

**Tech-Powered Math:** The children had the opportunity to dive into the world of math through interactive digital platforms.

**Dynamic Spanish Class with Teacher Britt:** Discovering Verb Tenses in a Fun and Engaging Way!

**Unleashing Creativity:** With vibrant colors and unconventional techniques, they discovered the joy of self-expression and transformed blank canvases into masterpieces.

**Teamwork and Fun:** Through group games and activities, we fostered an environment of collaboration, teamwork, and socialization.

**Magical Encounter with the Author of Harry Stier, Enrique Alejandro Toro Torres:** Hailing from the region of Oaxaca, the

author not only shared their captivating literary creation but also provided the children with their very own copies of the book through the Hallando Lectores initiative.

We firmly believe that creating a fun and stimulating environment is essential for children's development and success.

We extend our heartfelt gratitude to the children of Barrio Unión 1 km 2, Santa María Huatulco for their enthusiastic participation and unwavering spirit.
